Welcome to Agri Naturals

At Agri Naturals, we're passionate about harnessing the power of nature to bring you the finest quality henna products. Our journey began with a simple idea: to share the ancient wisdom of natural henna with the world.

Our Story

Founded by (karthick), Agri Naturals is a brand rooted in tradition and innovation. Our founder, a long-time advocate for natural living, discovered the incredible benefits of henna while exploring the ancient practices of Ayurveda. Inspired by its versatility and effectiveness, they set out to create a range of henna-based products that would make natural beauty accessible to all.
